

Press Release

Condensed IFRS results
12M 2025

26 February 2026, Moscow – Sberbank (the “Group” or “Sber”) published its Summary Consolidated Financial Statements under International Financial Reporting Standards (IFRS) (the “Statements”) for 12M 2025 and as of 31 December 2025.

Sber’s net profit for 12M 2025 reached RUB1 705.9 bn in accordance with International Financial Reporting Standards (IFRS)

Herman Gref, CEO, Chairman of the Executive Board of Sberbank, stated:

“Today, we are summing up Sber Group’s performance for 2025. Our net profit amounted to RUB1 705.9 bn, having grown by 7.9% year-on-year. Return on equity reached 22.7%.

Organic integration of artificial intelligence into Group processes and daily lives of people has become a key driver of our growth. Not only we have increased our active client base to 110.7 mn in retail and 3.5 mn in the corporate segment, we are reshaping the way clients interact with Sber. Today, the monthly audience of Sber’s AI solutions in SberBank Online and SberKids apps is 12 million people already. In the fourth quarter, our SberBusiness Spasibo loyalty program became a handy tool for every third entrepreneur, bringing together 1 mn companies.

The loan portfolio growth in 2025 was largely underpinned by the corporate segment: our corporate clients’ portfolio grew by 15.4% and exceeded RUB31.2 trn. The retail portfolio grew at a more moderate pace under the sustained pressure from high rates and regulatory restrictions, having gained 6.0% by year-end to reach RUB19.2 trn. To a significant extent, demand was supported by the family mortgage program. Attractive conditions secured a high level of saving behaviors, with retail clients’ deposits growing by 22.1% to RUB33.5 trn.

In 2025, we successfully retained our cost-to-income ratio at the previous year’s level (30.3%). Our performance remained high because artificial intelligence became the foundation of our operating model rather than just another business stream. We develop generative AI on the basis of the GigaChat family of proprietary fundamental models, and persistently expand their functionality, from text-only scenarios to multimodal analysis, including voice, images and videos. AI agents and multi-agentic systems are already used in key areas, delivering exponential process acceleration and measurable economic impact.

Sber Group’s equity grew to RUB8.3 trn in 2025, while the Banking Group’s capital adequacy ratio N20.0 increased to 13.7%¹¹. The safety margin thus achieved allows us to reassert our previously formulated targets for 2026. Our next focus is scaling platform-wide AI solutions and agents that boost business efficiency and provide a solid foundation for the development of Sber’s human-centric business model.”

				31.12.2025	31.12.2024	change YTD
Net loan-to-deposit ratio				97.2%	98.2%	-1.1 pp
Book value per share, RUB ⁴				369.5	317.6	16.4%

Net interest income grew by 19.9% YoY in 4Q 2025 to RUB988.2 bn. Over 12M 2025, net interest income grew by 18.5% YoY against the backdrop of working assets volume and yields growing to RUB3 556.0 bn.

- Net interest margin grew to 6.46% in 4Q 2025 (+0.3 pp over the quarter), amounting to 6.2% in full year terms.

Net fee and commission income reduced by 1.1% YoY for 12M 2025 to RUB833.7 bn. Last year's high baseline, driven by one-off recognition of corporate client revenues, continued to weigh on the fee and commission income dynamics.

- Sber's fleet of new POS terminals that support all advanced payment methods reached 1.5 mn devices.
- In 4Q, the terminal functionality stepped well beyond plain vanilla payment feature: they now allow to not only pay for a purchase (including the "Pay in installments" service) but also to leave a tip for quality services or provide feedback.
- Biometric operations amounted to 188 mn transactions in 2025 on a full-year basis, having exceeded RUB150 bn. Turnover grew 7 times from the previous year.
- The Whoosh payment technology became one of the Bank's most vibrant payment services, with current monthly volumes being about 15 mn transactions.

Group's operating income before provisions grew by 14.4% YoY in 4Q 2025 to RUB1 010.3 bn, driven primarily by net interest income growth. For 12M 2025, the operating income increased by 16.6% YoY to RUB4 089.0 bn.

Total provisions and revaluations of loans measured at fair value reduced by 21.0% YoY in 4Q 2025 to RUB106.9 bn, and amounted to RUB610.9 bn for 12M 2025 (1.5x YoY).

- Cost of risk** amounted to 0.9% in 4Q 2025, having improved in the retail as well as the corporate segment. For 12M 2025, this indicator amounted to 1.3%.

Group's operating expenses grew by 21.4% YoY in 4Q 2025 to RUB373.8 bn and by 16.5% YoY for 12M 2025 to RUB1 237.4 bn against the backdrop of growing payroll, amortization of intangible assets, driven by AI investment, and growing marketing expenses.

- Cost-to-income ratio** was 30.3% for 12M 2025. In 4Q 2025, this metric was 37.0%, which is comparable with the same period of the last year.

Net profit grew by 7.9% YoY for 12M 2025 to RUB1 705.9 bn, with **return on equity** standing at 22.7%. In 4Q 2025, Sber earned RUB398.6 bn of net profit (+12.9% YoY), with return on equity standing at 19.9%.

Key Segments Overview

B2B

The B2B segment builds long-term trusted relationships with corporate clients, offering solutions and services that contribute to the development of their business.

RUB bn, unless stated otherwise	31.12.2025	30.09.2025	31.12.2024	change QoQ	change YTD
Corporate loan portfolio ⁶	31 164	29 932	27 736	4.1%	12.4%
Commercial loans	17 166	16 592	16 370	3.5%	4.9%
Project finance	13 998	13 340	11 366	4.9%	23.1%
Corporate deposits	15 908	17 556	16 805	-9.4%	-5.3%

The number of active corporate clients grew by more than 200 thousand since the beginning of the year to 3.5 mn companies.

- By year-end, almost 1 mn companies used the SberBusiness Spasibo loyalty program.
- In 2025, Sber significantly expanded its AI-powered offerings for corporate clients. Upgraded recommendation algorithms allowed to provide over 400 thousand entrepreneurs with tailored business development solutions that included specific actionable steps and tools.
- Sber carried on with scaling AI agents, having implemented a number of solutions aimed at supporting and developing client businesses.
 - The business development AI agent analyzes business metrics, determining growth zones and putting together tailored scale-up scenarios.
 - The educational AI agent evaluates business dynamics and chooses relevant courses and materials on the SberBusiness Live platform.
 - The AI agent for bidding at tenders finds relevant tenders, helps to calculate the quotation terms, prepare the document package and submit the bid.

Corporate loan portfolio grew by 4.1% in the 4Q 2025 (+4.9% excluding the adjustment for the effects of FX revaluation⁷) or by 12.4% since the beginning of the year

(+15.4% excluding the adjustment for the effects of FX revaluation⁷) and reached RUB31.2 trn. Corporate loan yield decreased by 6 bps for the 4Q 2025 to 15.9%.

- In 4Q 2025, corporate loan issuance amounted to RUB7.2 trn.
- Sber's market share of corporate lending grew by 0.4 pp since the beginning of the year to 32.8% (-0.4 pp for the quarter).
- The small and mid-sized enterprises (SME) client loan portfolio amounted to RUB7.3 trn⁸, while Sber's share of the SME lending market was at 49.3%⁹.

Corporate client funds reduced by 9.4% for the quarter (-8.4% excluding the adjustment for the effects of FX revaluation⁷) or by 5.3% since the beginning of the year (-1.4% excluding the adjustment for the effects of FX revaluation⁷) to RUB15.9 trn, driven by funding costs optimization as part of the Group liquidity management procedures. The cost of corporate deposits reduced by 1 bp in 4Q 2025 to 11.5%.

- Sber's market share in corporate client funds reduced by 0.8 pp for the quarter or by 1.7 pp since the beginning of the year to 18.2%.

B2C

The B2C segment offers a wide range of financial and non-financial solutions and services for our retail clients.

RUB bn, unless stated otherwise	31.12.2025	30.09.2025	31.12.2024	change QoQ	change YTD
Loans to individuals ⁶	19 207	18 500	18 116	3.8%	6.0%
Mortgage loans	12 453	11 725	11 154	6.2%	11.6%
Consumer loans	3 513	3 594	4 018	-2.3%	-12.6%
Credit cards and overdrafts	2 516	2 536	2 342	-0.8%	7.4%
Car loans	725	645	602	12.5%	20.5%
Retail deposits	33 466	30 321	27 822	10.4%	20.3%

The number of retail clients increased by 0.8 mn year-to-date to 110.7 mn.

- In 2025, the monthly audience of our AI-driven solutions in digital retail channels reached 12 mn users, with AI technologies integrated in Sber's key B2C products, from navigation and GigaChat-enabled search in Sberbank online to gaming assistants in SberKids.

Monthly Active Users (MAU) of **Sberbank Online** (app + web) increased by 0.3 mn for the quarter to 84.8 mn (+1.3 mn YTD), while Daily Active Users (DAU) rose by 1.2 mn for the quarter to 44.9 mn. The DAU/MAU ratio grew to 53.0%.

MAU of the **SberKids** mobile app reached 2.8 mn, rising by 0.3 mn for the quarter and by 0.6 mn since the beginning of the year, driven by the app's expanded features and new product offerings for the young audience.

Registered membership in the **SberSpasibo** loyalty program grew by 1.9 mn during the quarter or by 8.7 mn since the beginning of the year to 100.5 mn clients. The growth was driven by an ongoing expansion of the program's benefits and customization of its categories, making it a prime choice for managing daily spending for millions of families.

The number of clients using **Sber ID** accounts to sign into websites or apps of Sber and our partners increased by 6.4 mn for the quarter or by 22.2 mn since the beginning of the year to 116.6 mn. Sign-in with SberID is now supported on 115 thousand different surfaces.

The number of **SberPrime** subscribers grew by 0.6 mn for the quarter or by 0.4 mn since the beginning of the year to 22.9 mn.

The **retail loan portfolio** increased by 3.8% in Q4, or by 6.0% since the beginning of the year, reaching RUB19.2 trn. Retail loan yield dropped by 1 bp in Q4 2025 to 16.9%.

- Sber's share of the retail lending market expanded by 1.0 pp for the quarter, or by 1.4 pp since the beginning of the year to 49.4%¹⁰.

The **mortgage loan portfolio** increased by 6.2% in Q4 2025, or by 11.6 % since the beginning of the year, to RUB12.5 trn.

- Mortgage disbursements totaled a record RUB1.3 trillion in Q4 2025, increasing by a factor of 1.5 YoY, driven by widely anticipated changes in the government's family mortgage program.
- Sber's share of the mortgage market grew by 1.4 pp for the quarter or by 2.6 pp since the beginning of the year to 57.0%¹⁰.

The **consumer unsecured loan portfolio** decreased by 2.3% during the quarter (-12.6% YTD) RUB3.5 trn to under the pressure of high interest rates prevalent across the economy in addition to stricter regulations.

- Consumer loan disbursements amounted to RUB502 bn in Q4 2025.
- Sber's share of the consumer lending market expanded by 0.9 pp for the quarter (+0.5 pp YTD) to 39.1%.

The **credit card portfolio** decreased by 0.8% in Q4 but rose by 7.4% since the beginning of the year, totaling RUB2.5 trn.

- Sber's share of the credit card market expanded by 0.5 pp for the quarter or by 1.4 pp since the beginning of the year to 54.4%.
- Sber implemented an AI agent to advise clients on outstanding credit card balances, thus simplifying the customer journey.

The **car loan portfolio** grew by 12.5% in Q4 (+20.5% since the beginning of the year) to RUB0.7 trn.

- Sber's share of the car loan market grew by 1.3 pp for the quarter or by 1.1 pp since the beginning of the year to 20.0%¹¹.

Retail funds reached RUB 33.5 trn, demonstrating a solid growth of 10.4% for the quarter (+10.7% excluding the adjustment for the effects of FX revaluation⁷) or by 20.3% since the beginning of the year (+22.1% excluding the adjustment for the effects of FX revaluation⁷). The cost of retail deposits decreased by 12 bps in Q4 2025 to 9.5%.

- Sber's market share of retail client funds grew by 1.2 pp for the quarter or by 1.9% since the beginning of the year to 44.2%.

Key Asset Quality Metrics

%, unless stated otherwise	31.12.2025	30.09.2025	31.12.2024	change QoQ	change YTD
Stage 3 + POCI Loans / total gross loans at amortized cost	4.9%	4.8%	3.7%	0.03 pp	1.1 pp
Provision coverage of Stage 3 + POCI loans	105.6%	108.2%	125.1%	-2.6 pp	-19.5 pp

The overall loan portfolio quality in Q4 2025 remained under pressure from high interest rates prevalent across the economy. **The share of Stage 3 loans**, including

originally impaired ones, increased by 0.03 pp to 4.86%, mostly due to the retail segment.

The ratio of total provisions to impaired loans decreased by 2.6 pp for the quarter to 105.6% thanks to reduced risk levels for new disbursements

Selected Group Capital Adequacy Results

RUB bn, unless stated otherwise	31.12.2025	30.09.2025	31.12.2024	change QoQ	change YTD
Common equity Tier 1 capital	7 268.5	6 943.2	6 428.5	4.7%	13.1%
Tier 1 capital	7 418.5	7 093.2	6 578.5	4.6%	12.8%
Total capital	7 900.3	7 529.5	6 800.6	4.9%	16.2%
Risk-weighted assets	56 043.4	55 307.9	52 977.2	1.3%	5.8%
Common equity Tier 1 capital adequacy ratio	13.0%	12.6%	12.1%	0.4 pp	0.9 pp
Tier 1 capital adequacy ratio	13.2%	12.8%	12.4%	0.4 pp	0.8 pp
Total capital adequacy ratio	14.1%	13.6%	12.8%	0.5 pp	1.3 pp
Capital adequacy ratio for the Group N20.0 ¹¹	13.7%	13.4%	13.3%	0.3 pp	0.4 pp

Common equity Tier 1 capital increased by 4.7% in Q4 2025 to RUB7.3 trn mostly due to net income growth. **Total capital** grew by 4.9% for the quarter to RUB7.9 trn.

The Group risk-weighted assets increased by 1.3% in Q4 to RUB56.0 trn mostly due to total loan portfolio growth.

Common equity Tier 1 capital and Tier 1 capital adequacy ratio grew by 0.4 pp in Q4 2025 to 13.0% and 13.2%,

respectively, while **total capital adequacy ratio** increased by 0.5 pp to 14.1%.

Capital adequacy ratio for the Group N20.0 grew by 0.3 pp for the quarter or by 0.4 pp since the beginning of the year to 13.7%¹¹.

Technology Leadership

Technology development remains a key factor supporting Sber's competitive position and operating efficiency. In 2025, we continued implementing generative AI technologies across our areas of operations.

- Sber has released Russia's leading neural network models from the GigaChat 3.0 line – Ultra Preview and Lightning – into the public domain, along with the new generation of GigaAM-v3 models for speech recognition, as well as image and video generation models from the Kandinsky 5.0 line.
- GigaChat Ultra Preview is GigaChat's largest and most powerful model to date, Russia's first on that scale.
 - Kandinsky 5.0 Video has grown into one of the world's best open-source image and video generation models, becoming an essential tool for the professional community.
- GigaChat's MAU has exceeded 20 mn users who made more than 800 mn queries.
 - Working with GigaChat has become more natural and multi-faceted as the neural network can now handle various types of data and communicate with users by voice.
 - GigaChat now features an agent marketplace – a library of AI tools geared for autonomous accomplishment of user-defined tasks.
- Sber's team is carrying out more than 670 GenAI initiatives to improve operating efficiency and user experience.
 - The combined economic effect from AI implementation exceeded RUB 450 bn in 2025, including some RUB 50 bn contributed by our GenAI solutions.
 - AI developer tools help accelerate key Sber product development processes by a factor of 2 to 4.
- A few thousand of our corporate clients are already using Sber's GenAI solutions.
 - More than 50 AI agents are available to entrepreneurs through our SberBusiness platform to automate everyday tasks.
- Some 90% of Russia's regions now use Sber's AI solutions in areas such as healthcare, agriculture, education or public services.
- At the AI Journey conference in November 2025, Sber introduced Green, an anthropomorphic GigaChat-driven robot, designed and assembled by Sber in-house engineers.

Sustainability

- Sber's responsible finance portfolio (green, adaptive, social, and ESG loans) reached RUB4.47 trn (+17% YoY).
- Sales of non-credit ESG products amounted to RUB7.6 bn, rising by a factor of 2.2 YoY.
- Sber has adopted an energy-saving program aimed at reducing greenhouse gas emissions by more than 117 000 tons of CO₂ by 2030. We pay particular attention to the development of an energy management system and a process-driven approach to improving the energy efficiency of the Bank's facilities as they perform their technology processes. It's a large-scale AI deployment that is helping us implement this approach.
- Sber reiterated our ESG ratings in the fourth quarter:
 - RAEX: AAA – a very high level of ESG risks and opportunities management
 - NRA: AAA.esg – the top level of integration of the sustainability agenda into the Group's operations
 - NCR: AAA – the top level of meeting environmental, social and governance standards
 - Expert RA: ESG-II(a) – a very high level of taking sustainability into account in making key decisions.

Sber supports education projects:

- Our School 21 campuses have already been opened in 18 Russian regions. We have also launched a joint program with RUDN University to train AI engineers and digital customers.

Sber launched museum volunteering at the end of 2025 – a new initiative that will help preserve cultural heritage for future generations and make museums more modern and more accessible.

- Volunteers involved in those projects use AI tools extensively; for example, neural networks help them process archives, structure data and digitize processes faster and more efficiently.
